MEMORANDUM FOR: Chief, Support Operations Staff, DD/S

SUBJECT : CIA Pollution Abatement Responsibilities and Activities

STAT 1. Pursuant to pertinent statutes, Executive orders, and related policy statements, the Head of the CIA is responsible that CIA facilities and activities, within the United States and its territories, comply with pollution abatement policies, standards, regulations, and procedures as promulgated from time to time by Federal, state, and local authorities. The range of facilities and

[REDACTED]

such as the General Services Administration and the Department of Defense, to assist and support CIA does not relieve the Head of CIA from the basic responsibility of reviewing and analyzing internal Agency operations in order to identify those specific areas where corrective action or improvements are necessary to stay abreast of increasingly more stringent standards. Existing cover agreements do not specify that other agencies take on a reporting function in our behalf.

2. External reporting requirements are minimal. The extent to which minor corrective actions are reported is largely discretionary. The General Services Administration, Region 3, has identified only five overt Agency projects or activities in the reports they have thus far prepared (see Attachment1). It appears that CIA can proceed on a low-profile basis to identify needed corrective actions and then make the corrections without formally reporting the details or activities externally.

3. Assistance on a nonreimbursable basis in accomplishing surveys and analyses of the type outlined is generally available from the Water Quality Office and the Air Pollution Control Office of the newly formed Environmental Protection Agency. Such assistance can be obtained directly for overt facilities and through covert support channels for covert facilities.

ATTACHMENT II

POLLUTION ABATEMENT - COORDINATION
REQUIREMENTS FOR MAJOR NEW PROJECTS

The following is a tabulation of the Federal, state, and local agencies with whom planning and design of major, new construction projects in Virginia, Maryland, and/or the District of Columbia would normally be coordinated from the environmental impact viewpoint. These agencies would also be aware of and can advise concerning further coordination of projects having special features, for example x-ray facilities in hospitals and dispensaries.

1. Federal Environmental Protection Agencies
 - a. Federal Sources Branch
Air Pollution Control Office
Environmental Protection Agency
(Room 17 B 42, Parklawn Building)
5600 Fishers Lane
Rockville, Maryland
 - b. Federal Activities Branch
Water Quality Office
Environmental Protection Agency
918 Emmett Street
Charlottesville, Virginia 22901
2. State of Virginia
 - a. Virginia State Water Pollution Control Board
Richmond, Virginia
 - b. Virginia State Department of Health
Richmond, Virginia
 - c. Virginia State Air Pollution Control Board
Northern Virginia Office
7115 Leesburg Pike
Room 104
Falls Church, Virginia 22043
3. Fairfax County
 - a. Air Pollution Control Office
Health Department
Fairfax County

Subject: Pollution Abatement - Coordination Requirements for
Major New Projects

- b. County Development Department
Fairfax County
- c. Fairfax County Environmental Health Department
- 4. District of Columbia
 - a. Department of Human Resources
Community Health Service Administration
Environmental Health Directorate
Bureau of Air Pollution Control
25 K Street, NE (Room 310)
Washington, D.C.
 - b. Department of Human Resources
Community Health Service Administration
Environmental Health Directorate
Bureau of Public Health Engineers
Division of Water Pollution Control
801 N Capitol Street
Washington, D.C.
- 5. State of Maryland
 - a. Maryland State Air Quality Control Office
State Office Building
Annapolis, Maryland
 - b. Maryland State Department of Water Resources
State Office Building
Annapolis, Maryland
- 6. Arlington County
 - a. Environmental Health Bureau
Department of Human Resources
Arlington County
1800 North Edison Street
Arlington, Virginia 22207
- 7. Montgomery County
 - a. Division of Environmental Health Services
Health Department, Montgomery County Government
600 South Frederick Avenue
Gaithersburg, Maryland 20760

Subject: Pollution Abatement - Coordination Requirements for
Major New Projects

8. Prince George's County

- a. Bureau of Environmental Health
Prince George's County Government
3700 East-West Highway
Hyattsville, Maryland 20783
- b. Department of Inspections and Permits
Prince George's County Government
County Service Building
Hyattsville, Maryland
